|--------------------------------|--------------------------|---------------------------|----------------------------|
| Level 1 | Level 1 | Level 1 | Level 1 |

Cal OES INLAND REGION

Levee Breach / Evacuations, Kings River Country Club, Kingsburg, Tulare County

On 06/23/17 at 2345 hours, the Cal OES Inland Duty Officer (IDO) advised the California State Warning Center (CSWC) that a levee breach occurred at the Kings River Country Club, Kingsburg, Tulare County. High flows into the Kings River resulted in the levee breach. The breach is approximately 15 feet wide and 6-8 feet high and there is about 15 feet of standing water on the golf course.

The water is threatening approximately 90 homes around the golf course, and 300 people. A second breach was reported as of 0430 hours, which has caused flooding of homes in the area. As a result, responders are checking homes to ensure residents are able to safely evacuate.

Flood Fight

- Two hand crews sandbagged the levee during the evening of 06/23/17 on the opposite side of the river in area of concern; that portion of the levee has held.
- Six additional hand crews have been ordered to assist flood fight operations.
- A total of 250 response personnel are expected on-scene on 24-hour shifts.
- One Department of Water Resources (DWR) and One CAL FIRE Representatives are on scene at the breach, another DWR Representative has been requested to deploy to the Emergency Operation Center (EOC).
- DWR will also deliver additional flood fighting material to Kingsburg for staging on 06/24/17.

Deployments

- 1 Cal OES Inland Region Emergency Services Coordinator (ESC) to Tulare County EOC
- 1 Cal OES Fire and Rescue Assistant Chief to Incident Command Post (ICP)
- 1 DWR Flood Fight Specialist to ICP

Missions:

- 2017-INLAND-36683: CAL FIRE and CDCR tasked to provide four hand crews to sandbag to the City of Kingsburg, Tulare County.
- 2017-IREOC-36699: Three Department of Water Resource (DWR) Agency Representatives, one to Cal OES Inland Region Emergency Operation Center (IREOC) and two to the Tulare County EOC / Scene, Farmersville, Tulare County.

Proclamations:

- None.

SITUATION SUMMARY

Cal OES INLAND REGION Cont.

EOC Activations

- Cal OES IREOC at Level 1 at 0100 hours on 06/24/17
- Tulare County EOC activated to Level 1 on 06/24/17

Mandatory Evacuations:

- Per the Cal OES Law Enforcement Duty Officer (LDO), Mandatory Evacuations were issued for a 1-1 ½ mile area and residents have been directed to the existing shelter at Reedley High School in Fresno County.

Shelters:

- American Red Cross Shelter: Reedley High School, 740 W. North Ave, Reedley.
 - Population: At this time, none of the evacuees from Kings River are using the Reedley Shelter.

Road Closure:

- Per the Cal OES LDO on Saturday 06/24/17 at 0216 hours:
 - No hard closures to any major roads.

Health and Medical

- None reported.

School

- None reported.

Utilities

- None reported.

River Conditions

- As of 06/24/17 morning, flows in the Kings River are running at 14,900 cfs. DWR Flood Operation Center (FOC) staff and Pine Flat Reservoir operators will coordinate this morning regarding anticipated river flows for today and ensure the facility operators are fully briefed on the levee breach down stream.

Weather

- Well above normal temperatures again today then slight cooling this weekend. Thunderstorms will be possible over the Sierra Nevada each afternoon and evening through the weekend. Dry conditions and further cooling early next week.

SITUATION SUMMARY

Cal OES INLAND REGION (Cont.)

Flooding / Evacuations, Riverland Resort, Kingsburg, Tulare County

On 06/18/17 at 1000 hours, Riverland Resort in Kingsburg, Tulare County experienced out-of bank flooding along a non-leveed area of the Kings River. Riverland Resort is a recreational park with cabins, apartments, RV sites and amenities available for rent. The flooding is a result of Pine Flat Reservoir releases increasing to 12,800 cfs through the end of June. Reservoir inflows and resulting releases are expected to peak Wednesday, 06/21/17.

- On Sunday 06/18/17, the Cal OES Inland Duty Officer (IDO), requested mission tasking to provide sandbag assistance at the resort, the Cal OES Executive Duty Officer (EDO) approved the mission, which has been closed as of Monday 06/19/17.
- On Tuesday 06/20/17 and Wednesday 06/21/17, the IDO requested mission tasking to provide sandbag assistance at the resort, the EDO approved the mission. The Flood Operation Center (FOC) is currently evaluating hydrologic conditions and had a Flood Fight Specialist (FFS) onsite Tuesday 06/20/17.
 - On Thursday 06/22/17, an additional FFS deployed to the area and both will remain there through the weekend.
- The Kings River Conservation District is monitoring this area 24 hours per day.
- On Friday 06/23/17 at 1404 hours, the National Weather Service (NWS) Hanford issued a Flood Warning through Monday 06/26/17 at 1400 hours, for snowmelt in northwestern Tulare County.
 - Releases from Pine Flat Dam are expected to increase through the weekend.
 - Locations below Pine Flat Dam are expected to experience additional flooding.
- Today 06/24/17, two containers filled with flood fighting material will be delivered to the Town of Sanger in Fresno County in the event they are needed.

Evacuations

Per the Cal OES Law Duty Officer (LDO) on 06/20/17 at 0846 hours:

- On 06/19/17, Tulare County issued a mandatory evacuation order for the Riverland RV and Campground.
- On 06/21/17, Fresno County Sheriff advised that they have Deputies stationed at the Riverbend Trailer Park.
 - There are 43 residents who evacuated.
 - There were 13 residents who remained in their houses.

Shelters

American Red Cross Shelter: Reedly High School, 740 W. North Ave, Reedly

- Midnight Count: 11 residents.
- This shelter is taking residents from Riverbend Mobile Home Park (Tulare County) and Riverland RV Park (Fresno County) due to their close proximity.

Road Closure

Per the LDO on Monday 06/19/17 at 2249 hours:

- Localized flooding only and only the resort has been impacted.
- No hard closures to any major roads.
- See 2017 Statewide Winter Storms Slides

SITUATION SUMMARY

Cal OES COASTAL REGION

Drinking Water Notice, San Juan Bautista, San Benito County

On Wednesday 06/21/17, the City of San Juan Bautista issued a drinking water notice to residents as a result of high nitrate levels in water samples tested on Tuesday 06/20/17.

- Per the Cal OES Coastal Region Duty Officer (CDO) and the State Water Resources Control Board (SWRCB) Drinking Water Program Duty Officer (DWP-DO):
 - All residents are advised not to drink tap water.
 - Bottled water is available at City Hall to those who are susceptible to high nitrates.
 - The Fire Department is providing water to residents at no cost via a reverse osmosis machine at their Fire Station on 2nd St.
 - 1 of the City's 2 wells is affected and both wells feed into the same main water line.
 - The affected well remained offline until 06/22/17 while residents were being notified.
 - Due to the current heat wave the affected well was needed to keep up with demand.
 - There is no request for State assistance.
- See 2017 Statewide Winter Storms Slides

Cal OES SOUTHERN REGION

- See 2017 Statewide Winter Storms Slides

SITUATION SUMMARY

2017 Statewide Winter Storms

EMAC and Public Assistance - 2017 Winter Storms

Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.

- See Cal OES Mission Tasking slide for Mission Tasking information

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Solano County: Sacramento River at Rio Vista

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Alpine County: East Fork Carson River at Markleeville
- Stanislaus County: Tuolumne River at Modesto

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood Stage:

- Mono County: West Walker River at Highway 395 below Little Walker is forecast to exceed flood stage at 6.0 feet and up to 6.5 feet through 06/27/17.
 - At 6.0 feet, some minor flooding of lowlands, pastures and rural roads.
 - At 6.6 feet, minor to moderate flooding of lowlands, pastures and some rural roads along river from Walker to Topaz Lake.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Highway, Vegetation Fire, Kern County

Location: HWY 178, west of Lake Isabella

Jurisdiction: Federal DPA, FRA, Sequoia National Forest

Start Time: 06/18/17 at 1422 hours

Per CAL FIRE, Cal OES Fire Duty Officer (FDO) and ICS-209 of 06/23/17 at 1800 hours:

- 1,522 acres, 95% contained
- Expected Containment Date: 06/25/17
- No anticipated fire spread.
- Continue direct hand line construction and air support.
- 5 Local Government Engines assigned under local agreement.
- 1 Cal OES Fire Rescue Branch Assistant Chief Assigned.

Holcomb, Vegetation Fire, San Bernardino County

Location: Highway 18 x Holcomb Valley Rd, east of Big Bear Lake

Jurisdiction: Federal DPA, FRA, San Bernardino National Forest

Start Time: 06/19/17 at 1505 hours

Per ICS-209, CAL FIRE and the Cal OES Fire Duty Officer (FDO) as of 06/24/17 at 0635 hours:

- 1,503 acres, 80% Contained
- Expected Containment: 06/27/2017
- Type-2 Incident Management Team (IMT).
- 6 single residential and 1 commercial structures along with infrastructure threats (power lines and high pressure gas lines).
- Construct hand lines and advance hose lays, protect critical infrastructure.
- 20 Local Government Engines and 8 Water Tenders assigned under local agreement.
- 1 Cal OES Water Tender assigned.
- 2 Cal OES Fire Rescue Branch Assistant Chiefs assigned.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Very Hot/Dry through Today ***

*** Increasing Thunderstorm Chances Over Higher Terrain Sunday ***

Strong high pressure will remain over the region through today. Temperatures will reach 15-20° above normal today. Afternoon humidity will be 10-20% in many inland areas, with areas affected by the downslope winds as low as 5-15%. Light overnight downslope winds are still expected in wind-prone inland areas, and overnight relative humidity (RH) recovery will only be to 30-40% there. Isolated thunderstorms today will stay mainly in the Sierra from the Lake Tahoe area south.

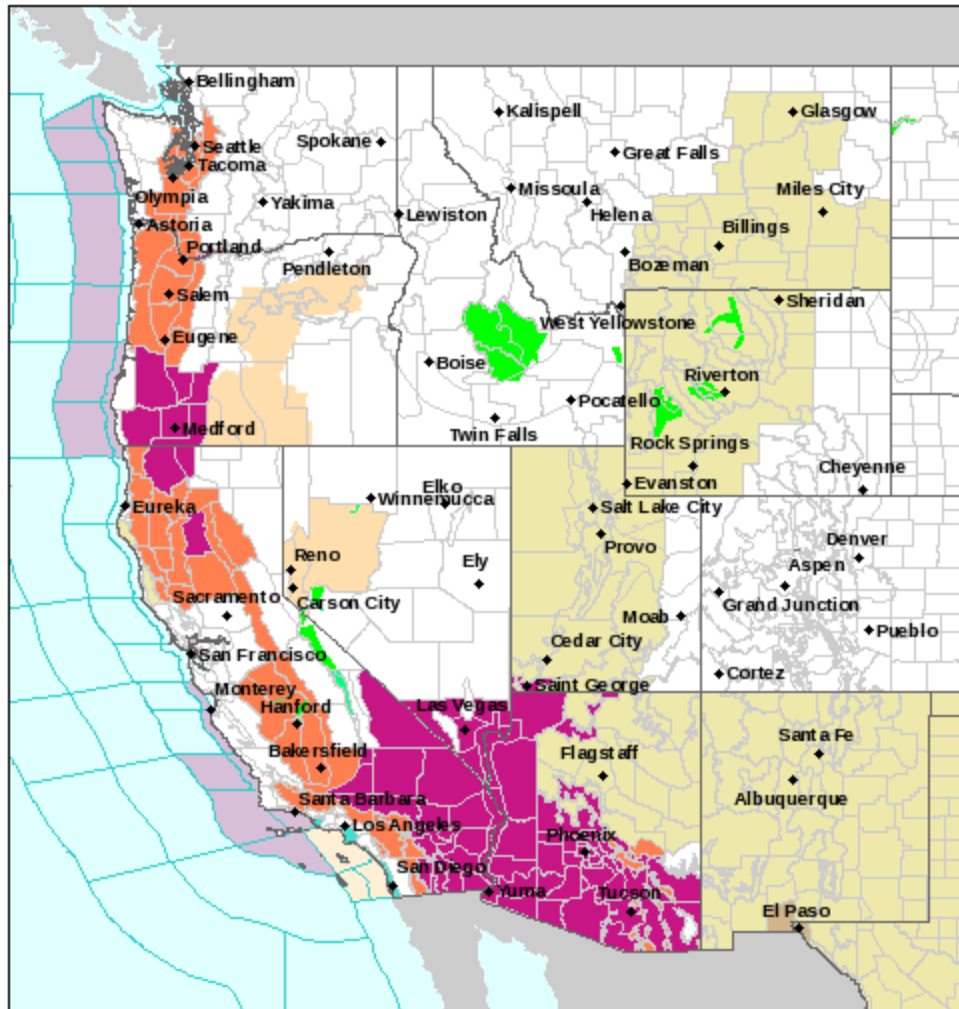

The high pressure ridge will weaken starting late Sunday and a low pressure trough will approach the coast. The sea breeze will bring cool humid air into coastal regions and the delta breeze will begin to bring relief from the heat wave to the Sacramento Valley and foothills during the afternoon. Areas inland from the coast but not exposed to marine influences will remain hot and dry on Sunday. Thunderstorm chances will increase over the higher terrain late on Sunday. Next week temperatures will be closer to normal as a series of low pressure troughs move through. Higher elevations and areas east of the Cascade-Sierra crest will have occasional afternoon South - West winds gusting to 20-30 mph. This pattern will also allow a daily chance of afternoon and evening showers and thunderstorms, but with rainfall.

SOUTHERN CALIFORNIA

Above Normal Temperatures through the Weekend

This weekend, high pressure will move a bit closer to the region which will lead to a pause in the recent cooling trend. Expect temperatures today and tomorrow to be about the same as today with less marine layer cloudiness. Local north winds of 10-20 mph will be possible this morning along the I-5 Corridor and the higher elevations of the Santa Ynez Range. Minimum RH will be in the 8-12% range across most desert-adjacent areas of the mountains the next 2 days. This weekend, RH will also drop toward the single digits across northern Los Angeles County and Santa Barbara County with fair to poor RH recovery. Northwest winds of 15-25 mph will also occur along the central coast during the afternoon today and tomorrow. Isolated storms will continue in the highest elevations of the Sierra over the weekend. The rest of the area may see some high clouds and flat cumulus clouds near the higher terrain. Next week, a trough over the Pacific Northwest will bring stronger onshore flow and cooler temperatures. Temperatures should finally drop back closer to normal by next Tuesday. It may turn breezy in and near the deserts by the middle of next week.
